REGISTRATION INFO

Due to increasing concerns about concussions in youth sports, we ask that you please review the following information, in accordance with Wisconsin Act 172, statute 118.293. Our participants' safety is our number one concern!

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Even a "ding", "getting your bell rung" or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS & SYMPTOMS OF A CONCUSSION?

Signs and symptoms of a concussion can show up right after the injury or may appear days or weeks after the injury. If an athlete reports one or more symptoms of concussions listed below after a bump, blow, or jolt to the head or body, they should be kept out of play the day of the injury and until a health care professional, experienced in evaluating concussions, says they are symptom free and OK to return to play.

SIGNS REPORTED BY COACHING STAFF:

-Appear dazed or stunned -Forgetfulness/confusion
-Moves clumsily -Answers questions slowly -Loses consciousness
-Shows mood or behavior changes

SYMPTOMS REPORTED BY ATHLETES:

-Headaches or pressure in the head -Nausea or vomiting
-Balance problems or dizziness -Blurry vision
-Sensitivity to noise -Memory problems -Confusion
-Feeling sluggish, hazy, or groggy

CONCUSSION DANGER SIGNS:

In rare cases, a blood clot may form on the brain of a person with a concussion. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body they exhibit any of the following danger signs:

-One pupil is larger than the other -Cannot be awakened
-A headache that gets worse -Slurred speech -Seizures
-Repeated vomiting -Loses consciousness for any amount of time

WHY SYMPTOMS SHOULD BE REPORTED?

If an athlete has a concussion, they need time to heal. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in youth athletes can result in brain swelling or permanent damage that has the potential to be fatal.

WHAT SHOULD YOU DO IF YOU THINK AN ATHLETE HAS A CONCUSSION?

If you suspect that an athlete has a concussion, remove them from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play until a medical professional says they are symptom free and OK to return to play. Rest is the key to help an athlete recover. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional. SUMMER DAY CAMP

WELCOME TO DAY CAMP!

The recipe for a wonderful childhood includes **adventure, learning, safety, friends, and fun!** These are the components that the New Berlin Recreation Day Camp builds on to design our day camp program. Our program will help your children grow in their sense of belonging as they meet new people and develop life long friendships. Campers will experience a wide variety of interests including arts & crafts, group games, nature exploration, cooking, science, and technology to keep your camper active throughout the day. Each week of camp is themed to add extra fun!

The fun, adventurous atmosphere at Day Camp is created by our staff. We go to great lengths to train our staff to give your kids their best summer ever. The exciting activities draw them in, but the relationships formed here are why families come back year after year. Our program locations may be a bit different than years past, but what has stayed the same are the traditions and values we bring to our day camp program.

The truth is that the world loves Mexican food. It can be traced back to the era of Aztecs and Maya. Open Play Pickleball

Pickleball is a fun sport that combines many elements of tennis, badminton, and ping-pong. The rules are simple and the game is easy to learn, but can develop into a quick, fast-paced, competitive game for experienced players! New participants should have a general grasp of the game, rules, and equipment prior to attending their first time, but all skill levels are welcome! To begin this open-play program, all skill levels will be combined into a mixed doubles format. Note that during all Open-Play program times at least one court will be designated as a "Challenge Court" in order to encourage faster paced games and skill development. Different times and skill levels may be added to reflect demand.

THE A.R.C. - PHASE TWO

Each year the Recreation Department offers hundreds of programs, activities, and community events. These range from Summer Day Camp to Ballroom Dance, Cooking to Gymnastics, and Baton Twirling to Yoga. The staff team at New Berlin Recreation seeks to deliver high quality programming where thousands of New Berlin residents can meet new people, have fun, and try new activities. We are opening the first phase of the New Berlin Activity & Recreation Center (The A.R.C.) this summer, and this is just the beginning!

We are already busy planning the next phase of the A.R.C. which will include an expansion on to the north of the existing building. While the first phase of the facility focuses on spaces for enrichment activities, the second phase will focus on amenities to be used more for recreational health and wellness activities.

Construction began in the fall of 2022, and we hope to see the completion of phase two by the end of 2023 or early 2024. In the meantime, phase one will have a modified entrance through the playground area.
