REGISTRATION INFO

Due to increasing concerns about concussions in youth sports, we ask that you please review the following information, in accordance with Wisconsin Act 172, statute 118.293. Our participants' safety is our number one concern!

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Even a "ding", "getting your bell rung" or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS & SYMPTOMS OF A CONCUSSION?

Signs and symptoms of a concussion can show up right after the injury or may appear days or weeks after the injury. If an athlete reports one or more symptoms of concussions listed below after a bump, blow, or jolt to the head or body, they should be kept out of play the day of the injury and until a health care professional, experienced in evaluating concussions, says they are symptom free and OK to return to play.

SIGNS REPORTED BY COACHING STAFF:

- Appears dazed or stunned
- Forgetfulness/confusion
- Moves clumsily
- Answers questions slowly
- Mood or behavior changes
- Loses consciousness

SYMPTOMS REPORTED BY ATHLETES:

- Headaches or pressure in the head
- Nausea or vomiting
- Balance problems or dizziness
- Blurry vision
- Sensitivity to noise
- Confusion
- Feeling sluggish, hazy, or groggy
- Memory problems

CONCUSSION DANGER SIGNS:

In rare cases, a blood clot may form on the brain of a person with a concussion. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body they exhibit any of the following danger signs:

- One pupil is larger than the other
- Cannot be awakened
- A headache that gets worse
- Seizures
- Repeated vomiting
- Slurred speech

WHY SYMPTOMS SHOULD BE REPORTED?

If an athlete has a concussion, they need time to heal. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in youth athletes can result in brain swelling or permanent damage that has the potential to be fatal.

WHAT SHOULD YOU DO IF YOU THINK AN ATHLETE HAS A CONCUSSION?

If you suspect that an athlete has a concussion, remove them from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play until a medical professional says they are symptom free and OK to return to play. Rest is the key to help an athlete recover. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional. WELCOME TO DAY CAMP!

The recipe for a wonderful childhood includes **adventure, learning, safety, friends, and fun!** These are the components that the New Berlin Recreation Day Camp builds upon to design our day camp program. Our program will help your children grow in their sense of belonging as they meet new people and develop life long friendships. Campers will experience a wide variety of interests including arts and crafts, group games, nature exploration, cooking, science, and technology to keep your camper active throughout the day. Each week of camp is themed to add extra fun!

The fun, adventurous atmosphere at Day Camp is created by our staff. We go to great lengths to train our staff to give your kids their best summer ever. COMPETITIVE PICKLEBALL

OFFICIAL PICKLEBALL RATING EVALUATION

In an effort to maintain fair play, competition and social interaction, the New Berlin Recreation program will be initiating a rating evaluation for those players interested in playing at 3.5-4.0 skill levels or are interested in getting rated. With help from the Everything Pickleball Team, Kelly, Terry, Dave and Bryant will be assessing your skill level in a short, on court, one-on-one exchange, which takes about 10 minutes. These skills include groundstrokes, drops, volleys, serves and smashes.

Your rating will be recorded with Recreation and courts will have skill levels attached to the net at the venue so you know which courts are designated for each skill level.

It was designed for the active older adult, the true beginner, and/or people not used to exercising, or people who may be limited physically.
